Receiving Member Signature

Date

Under no circumstances may a member transfer money FROM an account on which they are not an authorized signer.

In order for the credit union to set up a Cross Account Transfer authorization for Home Banking, we require a form signed by both the sending and the receiving member. For example, if you wish to transfer funds from your account to another account on which you are not a primary or joint owner, you would need to complete and sign the form above and have the receiving member sign the form. Then return to one of our Member Service Representatives at 432.550.9128.
